Subject: Information in response to questions on CZARA Ag Tech Team Conference Call

Hello Alan,

I am writing to follow-up regarding information that I stated I would provide during the CZARA Ag Tech Team conference call. Here is a link to our [Water Quality Program website](#). Feel free to share with those that were on the conference call. To get information on Management Areas, you navigate to the Agricultural water quality management areas map and the select an area that you are interested in. After you click on a location a pop-up window will display links to the Administrative Rules, the Area Plan, DEQ consultation, and most recent Board of Agriculture Report.

Also, it is my understanding that ODA is working with Koto Kishida to gather detailed information for each of the Management Areas that will be provided in the near future.
